Nyeri Good Shepherd Academy (**KCPE**)

## ACCOMPLISHMENTS

- Represented Kenya in the World Youth Chess Championships between 2008-2014 in Greece, Turkey, Slovakia and South Africa.

## SKILLS ACQUIRED AND PROFESSIONAL ACHIEVEMENTS

During my time at the university as I pursued my career in Information System Technology and specializing in Computer forensics I was able to acquire the following competencies:

- Web design
- Forensic Accounting and Fraud Investigation
- Information System Audit
- Information Technology and Cybercrime
- Information Systems Security

Using the skills and knowledge learnt in school and under the supervision of Dr. Collins Oduor PhD I have been able to develop an online community charity platform going by the name Revival Community Charity.

This online community charity platform helps the local community to direct all resources to the development of its members through fundraisers and voluntary activities. In so doing, this project helps in the attainment of Kenyan's vision for economic growth and prosperity through increased collaborations among local communities

- The above project was inspired by the fact that I come from a small town in Laikipia County called Nanyuki. The town is mainly populated by Nilotes whose livelihood entails cattle keeping. Growing up I saw first-hand graduates facing unemployment and many falling into drugs to console themselves and eventually end up drug addicts. It also caught my attention that activities such as tree planting brought members of the community together and promoted unity. This made me realize that once the resources of a community were directed into the right channels through collaboration of its members, the development of the community will be achieved.
- I have participated in a community service project in Watu Wa Maana Street Children rehabilitation center. We were able to construct a hand wash bay and donated to the children masks, gloves, disinfectant, food, mosquito nets and other necessities.
- Worked as an administrative assistant at Marite Enterprises, which is a real-estate company in Nanyuki. I was able to gain experience in CMS and customer relations.
- I have recently completed my three-month internship program at the Kenya Commercial Bank (KCB), Kencom. I became conversant with core banking operations and was able to complete learning modules offered by the KCB group academy such as Anti-money laundering, Human Resource Policies and Ethics.

## **HOBBIES AND INTERESTS**

- Playing Chess
- Reading
- Travelling
- Cooking
- Joining and participating in social groups
